DETAILED ACTION

Response to Amendment

The amendment filed on May 11, 2006, has been entered and acknowledged by the Examiner.

Claims 1-16 are pending in the instant application.

Allowable Subject Matter

Claims 1-16 are allowed.

The following is an Examiner's statement of reasons for allowance: Applicant's remarks on page 2, paragraph 1 are persuasive in rendering the application allowable over the prior art.

Regarding independent claims 1 and 11, the references of the Prior Art of record fail to teach or suggest the combination of the limitations as set forth in claims 1 and 11, and specifically comprising the limitation wherein the light source end has an outward-opening cavity about a lead wire, such that the lead wire extends through the cavity, and a support wire is extended from a supporting structure of the lamp and is hooked into the cavity.

Regarding claims 2-10 and 12-16, claims 2-10 and 12-16 are allowable for the reasons given in claims 1 and 11 because of their dependency status from claims 1 and 11.
